

TRADE FAIR CRITERIA

19. - 21. February 2027

Setup Times

Thursday, February 18, 2027, 8 a.m. – 7 p.m.

It is advisable to bring goods to your exhibition space only from this time onwards!

Please note that all stand construction work must be completed by **7 p.m. on Thursday, February 18, 2027**, without exception, as the organizer will then carry out the final work on the general areas (laying the aisle carpets, decoration, etc.)! Special agreements regarding setup times are possible in some cases, but must be clarified with the organizer before the trade fair! Additional personnel costs and rental fees will be charged according to time and effort. All exhibitors must, without exception, have begun setting up their stands and reported to the information desk by **4 p.m. on Thursday, February 18, 2027** at the latest. Should a registered stand space not be occupied by the exhibitor by this time, the organizer reserves the right to use this space from this time onwards. Any additional costs incurred will be borne by the exhibitor who does not show up.

Dismantling times

Sunday, February 21, 2027, 5:00 PM – 9:00 PM

We ask that you remove any exhibits after the event. It is recommended that you supervise your stand during dismantling as long as valuables are still present. Early departure, i.e., before 5 p.m., will result in a penalty of EUR 1,000. Please refer to our General Terms and Conditions.

Official Fair Opening Hours

Friday, February 19,	9:00 AM – 6:00 PM
Saturday, February 20,	9:00 AM – 6:00 PM
Sunday, February 21,	9:00 AM – 5:00 PM

During these hours, the stand must be occupied.

Exhibitor Entry Times During the Event

Exhibitors can enter the exhibition halls daily from 8:00 am onwards, during which time they can restock their exhibition products. In general, exhibitors are allowed to stay in the halls for up to one hour after the official closing time.

Parking

Parking spaces are available free of charge on our exhibition grounds behind the halls. IMPORTANT: Access to the premises is only permitted upon presentation of your parking permit! You can obtain this permit at the information desk at the Events & Exhibitions Center or from the porter.

Underground Parking Garage

If you wish, you may also park in the on-site underground parking garage. Parking fees must be paid at the ticket machine, depending on the duration of your stay.

If you require a reserved parking space, please indicate this during your online registration. You will receive details of your reserved parking space in due time by email, or you can obtain the information upon arrival at the information desk or from the porter.

Postal Deliveries to the Fair

The organizer will only accept postal deliveries for exhibitors during the official setup, event, and dismantling times. The acceptance of shipments is at the sender's own risk, and the organizer assumes no liability! If you expect postal deliveries directly at the fair, please inform the information desk at the Events & Exhibitions Center.

General Guidelines

1. Stand Construction & Equipment

- 1.1 Any modification of the assigned space is not permitted. Changes to the external wall surfaces are also prohibited unless agreed upon with the organizer in advance.
- 1.2 The standard construction height is 2.00 m, extendable to 2.50 m with our in-house system. If this height is exceeded with superstructures, signage, or decoration, prior notification to the organizer is required, and written approval must be obtained.
- 1.3 General Stand Equipment:
Up to 30 m²: 1 table, 4 chairs, clothes rails and/or shelves.
From 31 m²: 2 tables, 8 chairs, clothes rails and/or shelves.
1 power connection, 230 volts.
- 1.4 The maximum construction height for external stand structures, subject to agreement with the organizer, is:

- boxx b: 3.2 m
- boxx b1: 2.45 m, up to 5 m in the middle area.
- boxx b2/Gallery: 2.45 m
- boxx c: 3.4 m
- boxx d: 3.4 m, 5 m in the middle area (DOM)

Flooring:

Industrial parquet flooring: boxx b1, boxx b2/Gallery

Coated concrete floor: boxx b, boxx c, boxx d

- 1.5 Fire extinguishing equipment, emergency exits, and aisles must be kept clear! Self-adhesive carpets are strictly prohibited as they may damage the hall floor (especially parquet flooring in boxx b, b1, b2) and leave adhesive residues that are difficult to remove. No objects, signs (except those provided by the organizer), or advertising boards may protrude into the visitor aisles. Decoration materials and fabrics must comply with fire protection classes B-s1, d0 and C-s1, d0 (flame retardant, low smoke emission, non-dripping). The use of flame-retardant sprays is prohibited. Please refer to our General Terms and Conditions.
- 1.6 Drilling or screwing into walls, ceilings, and floors is strictly prohibited! If structural reasons require drilling into the ceiling or wall, the exhibitor must inform the organizer in advance and restore the original condition after the event. Any adhesive residues must be fully removed. Non-compliance will result in cleaning or repair costs being charged.
- 1.7 **Modifications to Stand Equipment:**
Self-modifications to stand equipment, clothes rails, or shelves are not permitted. Damages resulting from unauthorized alterations will be documented and charged accordingly.
- 1.8 **Fire Safety Regulations:**
All stand constructions and furnishings must comply with applicable fire safety and security regulations. Only non-flammable or flame-resistant materials may be used for stand decoration. Plastics and foam materials (e.g., Styrofoam) are only permitted if a certificate of compliance with fire classification B1, smoke generation class Q1, and dripping behavior class TR1 is provided.

2. Activities at the Stand

Stand promotions must be reported to the organizer. They are only permitted if conducted within the stand area without acoustically or visually disturbing neighboring stands. Noisy product demonstrations and disruptive activities are strictly prohibited and will be immediately stopped by the organizer in case of non-compliance.

Additional Guidelines for External Stand Construction Companies

Cold light is recommended for exhibition stands. Halogen lights are prohibited due to excessive heat generation.

Rear walls exceeding 2 m in height must be neat and visually appealing.

Stands in boxx b1 in the upper hall area must be covered from above to ensure an attractive appearance when viewed from the gallery (boxx b2).

Water connections are only available to a limited extent.

All stand construction plans must be submitted in writing to the organizer at least 2 months before the event!

General Information for All Exhibitors

To ensure smooth preparations, please submit your orders on time!

We look forward to a successful sales season with you!

Best regards, your Brandboxx Team
